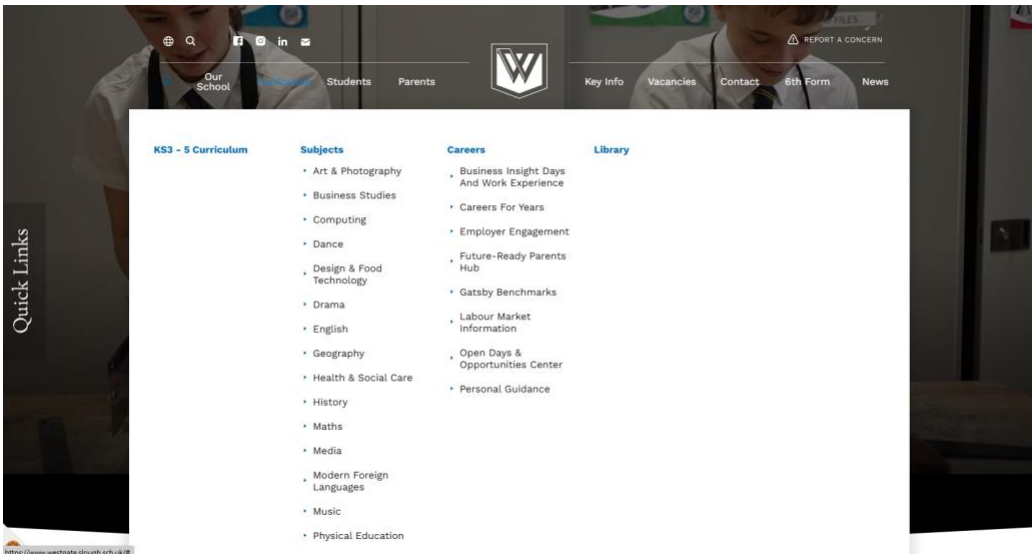
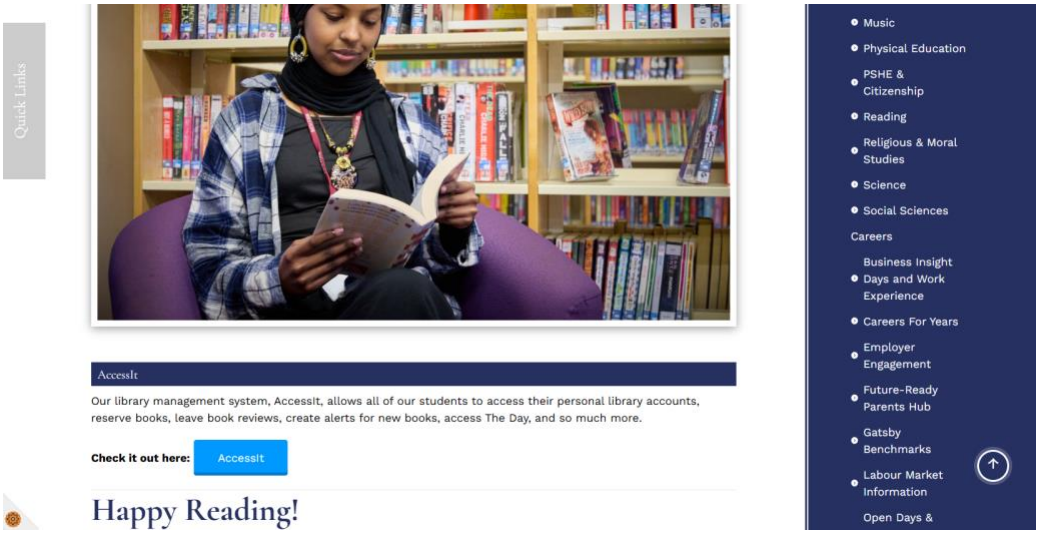
How to Use Accessit at Home and Write Book Reviews

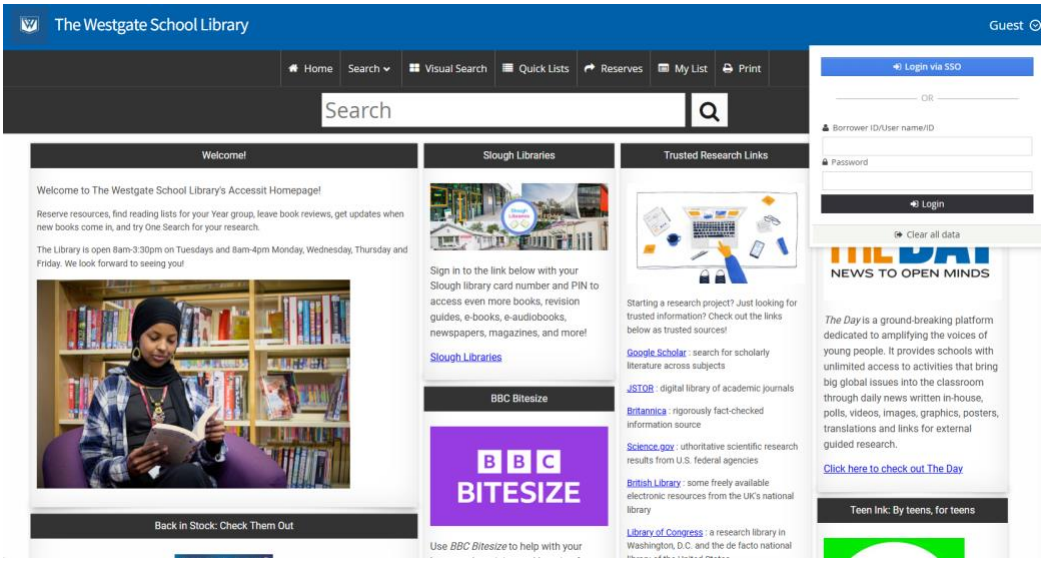
Go to The Westgate School's website, then click on 'Library' under 'Curriculum'



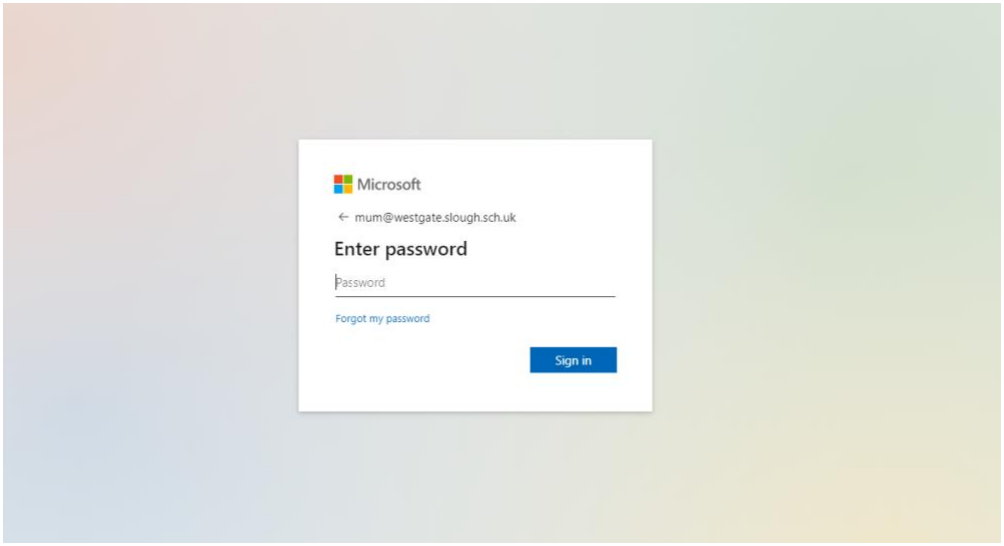
Scroll down until you reach the Accessit section and click on the blue link titled 'Accessit':



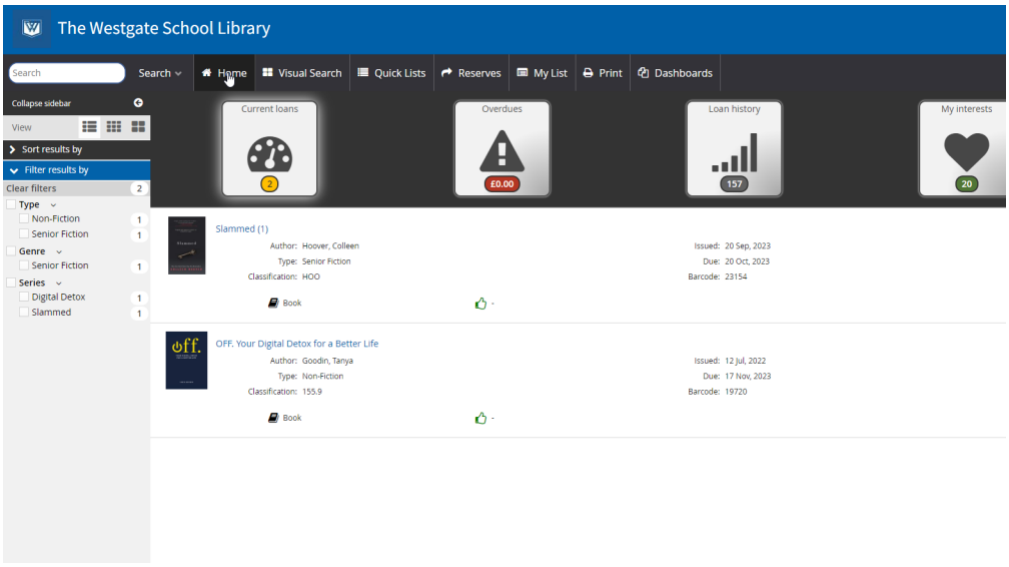
This will take you to our Accessit homepage. Click on 'Guest' in the top right corner and then click on the blue bar that says 'Login via SSO'



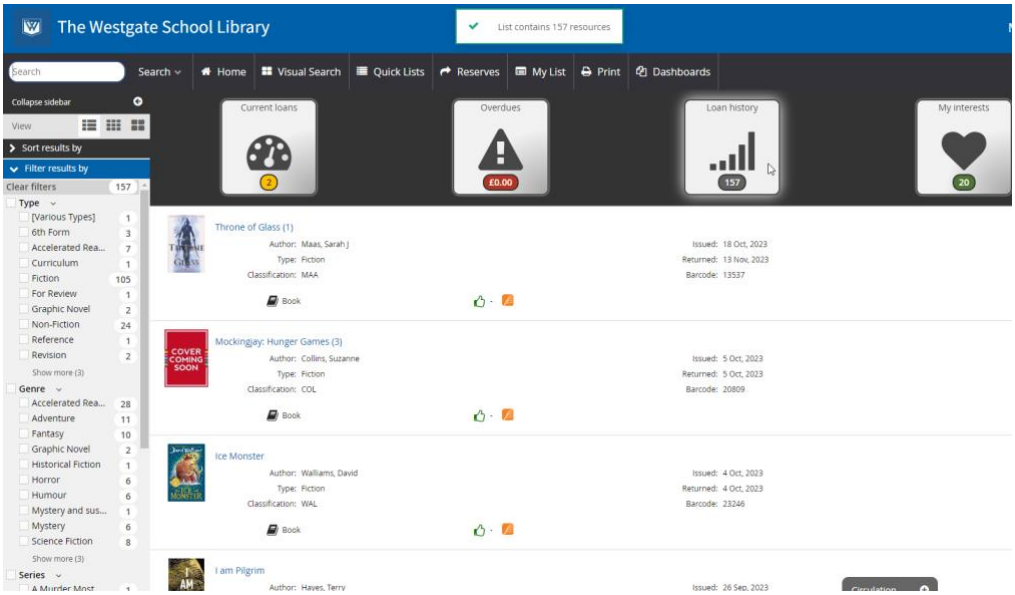
You will be prompted to log in via Microsoft Outlook. Log in using your school email and personal password:



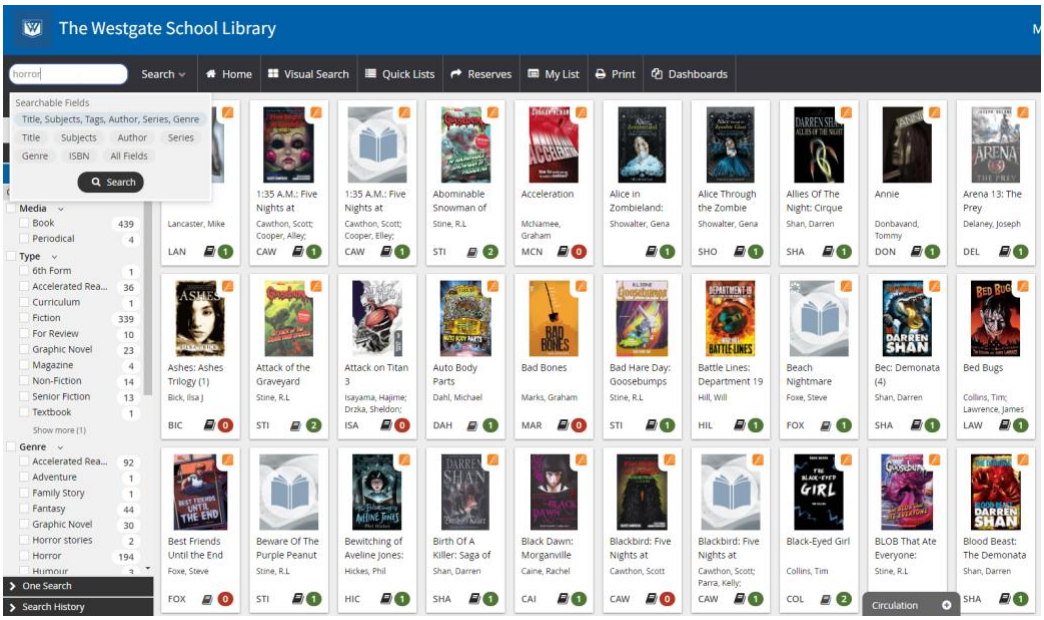
You will see your own library account when you log in:



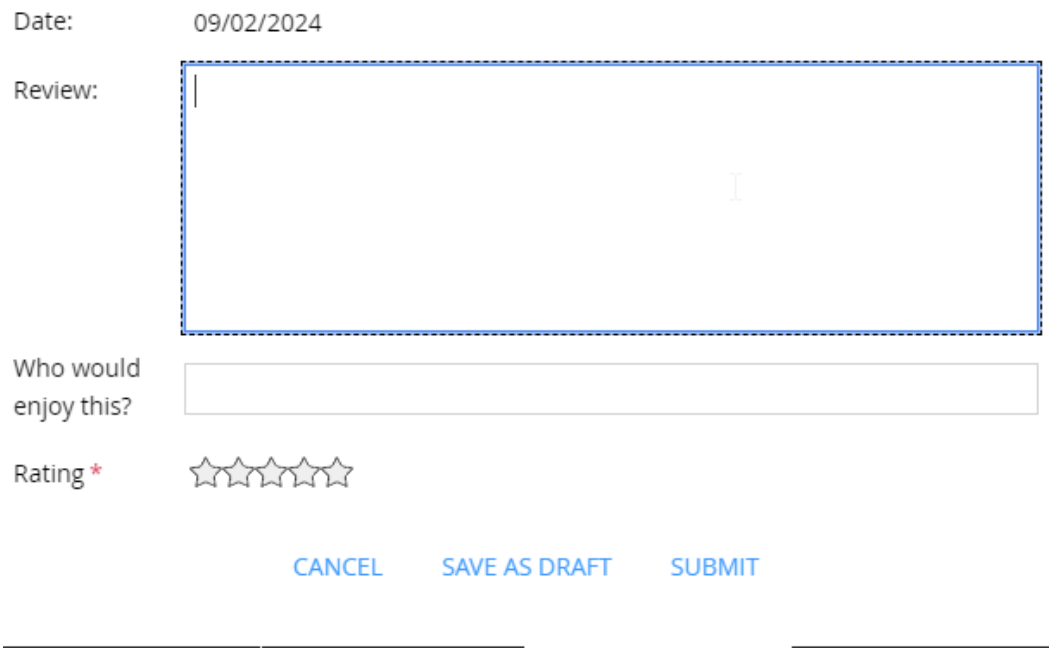
To search for books to write a review on, you can click on 'Loan History' in your account to see books you have borrowed from the school library:



Alternatively, you can use the search bar to find a book. You can search for books by title, by author, or by genre:



When you find a book you can review, click on the book's title and then on 'Write a review':



Write your full review (please include what you did or did not like about the book, a general summary of what it was about, and if you would recommend it to other students). Then click 'Submit'.

All of the reviews will come to me for review before I put them on the Accessit website.

Thank you!
